The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 74-80, 82 and 84-89 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Each of the claims described below set forth certain features of new matter as specified. Certain claims are rejected for being dependent on rejected claims, but do not contain new matter.

Claim 74: The phrase "system factors reflecting a potential medical importance of a symptom" is not taught within the original disclosure. The "intranet" and "local area network" are not taught within the original disclosure.

Claim 75: The "index symptom", "index symptoms", "redundant characterization of detail is skipped" are not taught in the original disclosure".

Claim 76: "Panic" and "somatoform disorder" are not taught in the original disclosure.

Claims 77-79: Depend on claim 74 but are not found to recite new matter.

Claim 80: The "successive interviews of said patient to reflect changes in severity over time" is not taught in the original disclosure.

Claim 82: Depends on claim 74.

Claim 84: The “prognostic importance”, “visceral or somatic sensation”, “visceral or somatic sensitization” are not taught in the original specification.

Claims 85-89: Depends on claim 74.

Remarks

Applicant's amendments have overcome the previous grounds of rejection under 35 USC 112, first paragraph, except at claim 75, where the rejections are repeated and sustained since the amendments did not remove the new matter. The remaining issues of new matter are exist in the claim amendments presented. No prior art is applied, although all the claims pending remain under rejection due to the presence of new matter where indicated.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
